
Edith Derdyk - Fantasmagorie

La Petite Escalère [1]

As part of its yearly series of modern and contemporary outdoor installations, La Petite Escalère has invited Brazilian artist Edith Derdyk to create a installation for the garden. This ephemeral site-specific work, installed in May 2017, will be on view until the fall and is part of this season's theme around spiders. This new installation, entitled Fantasmagorias, made of 78 kilometers of white cotton thread is located in La Petite Escalère's woods.

Year: 2017

Sculpture Nature: sculpturenature.com

It is a tridimensional drawing, conceived graphically as a multitude of very visual constructions.
